Owners must supply all wet and dry food for the duration of their cats stay. Please note, I will not accept Felix wet food, if you could provide an alternative. If your cat will only eat Felix please contact me to discuss further.

Cozycatz only used wood-based cat litter. If you would prefer your cat to use their own litter, please provide enough for the duration of their stay.

Litter trays are provided but if your cat uses an enclosed litter tray please bring this with you.

Please feel free to bring in anything you require for your cat but all beds, blankets, toys, scratch posts and bowls are provided. Kindly make a note of all items left with me to ensure safe return.

If this is a first time stay for your cat, I always recommend that you bring something that is familiar eg a little blanket or an old item of clothing with your smell and your cats on it.

General

I would strongly advise you inform your vets the dates you intend your cat to board with me, especially if your cat is on any medication, vulnerable or very elderly. Nothing will be done without your consent with regard to any treatment being administered.

You must notify me prior to your cat coming in if they have been showing any signs of illness eg sneezing, coughing, becoming lethargic, not eating or any noticeable change in behaviour.

Cozycatz has the right to refuse entry into the cattery if your cat appears ill on arrival

All cat collars will be removed and attached to their carriers except for Seresto collars.

Cozycatz will not accept responsibility for any cars, persons whilst parked on my property.

Please ensure I have an up to date Boarding Form with all your contact details and your cats history as required. Failure to do so may prevent me being able to take your cat.

I very much look forward to welcoming you and your cat/s to my cattery

Thank you for your continued support
